Alerts your mobile
upon intrusions!

NEVER LETS YOUR GUARD DOWN

Presenting Eagle-I Pro Wireless Home Alarm System

Security threats are known for coming unannounced. This has inspired us to come up with one of our latest offerings Eagle-I Pro Wireless Home Alarm System.

The system's alarm goes off on sensing any unauthorised intrusion and other emergencies. The panel also sends an alert on your mobile phone, instantly via calls and texts. Eagle-I Pro will never let your guard down, giving you complete peace of mind.

Wireless Home Alarm System
EAGLE-I PRO

2 door sensors

That send wireless signals to the alarm panel upon sensing an intrusion.

2 RFID tags

That allow the home owner to grant access to the home without sharing the code. The home owner also receives an alert each time the RFID is used so he gets to know who has used the RFID tag to enter the home.

1 key fob

Remote arm and disarm + a Panic Button that sends out calls and messages to pre-defined people in case of an emergency.

Optional accessories

Motion sensors & Door sensors

That detect unauthorised motion when the system is armed.

Wireless Hooter/Strobe

An additional hooter with an inbuilt flash light that goes off in case the alarm panel gets triggered.

Special Features

Supports 10 remote controls, 50 wireless sensors and 50 RFID tags

Store 5 phone numbers, 1 speed-dial number and 1 RFID SMS notification number

Cellular communicator simple operation

SMS alert for low battery of two-way accessories

Built-in loud speaker for siren and two-way talking

Arm and disarm the system by SMS or free phone call

5-hour standby

Remote monitoring via phone

SMS alerts for power failure, power recovery and low battery

Touch sensitive keypad
