I4 TA01 – Fingerprint Time Attendance Terminal

Product Description

I4 TA01 is a compact and efficient stand-alone device for Fingerprint based Time attendance System. Easy installation and flexibility of report generation make this system an ideal office automation tool for time management and security purposes. The advanced Fingerprint recognition system enables quick and accurate identity matching and can record up to 50,000 transaction records. The major advantage of the device is the facility of Fingerprint & Passwords – all rolled into one, with a flexibility to use any one or a combination of both to register their attendance.
